The nutritional composition of product will vary with each production lot. Typical nutritional data has been determined through composite lab testing and use of accepted nutritional database systems. This information is provided to you to aid in your development work, but should not be used solely to determine your nutrient labeling. You may need to analyze for those nutrients as they occur in your final product as required by CFR title 21, Section 101.9.

The information contained herein is to the best of our knowledge correct. The data outlined and the statements are intended only as a source of information. No warranties, expressed or implied, are made. On the basis of this information, it is suggested that you evaluate the product on a laboratory scale prior to use in a finished product. The information contained herein should not be construed as permission for violation of patent rights.
